37542 @A94 SEM, 01/17/12-05/05/12, instruction mode: Term Based Dist EduTelecom; "Leading Innovation in 21st Century Minnesota" - The "state" of Minnesota is subject to multiple definitions and interpretations. Is Minneapolis the "Lake Wobegon" version of Lake Wobegon? Are the Twin Cities a "cold Omaha" or do they surpass it as one of the world's major centers of creativity? What are the strongest and weakest opportunities and threats facing Minnesota's alternative futures as a "state of innovation?" What are the roles of social, cultural, and psychological "framers" in asking and answering these questions? Explore and discover Minnesota's alternative futures as engines of innovation - or their opposites. Help create new and improved ways of "talking Minnesotan" about Minnesota as a present and future "state of innovation." Analyze and apply IBM's "Smartener Planet" approach to Minnesota's innovation futures.
